SEALWORMS IN THE NORTH ATLANTIC: ECOLOGY AND POPULATION DYNAMICS

Contents

Preface

G. Desportes and G. McClelland: Introduction

Report of the Scientific Committee Working Group on Sealworm Infection

D.J. Marcogliese: Review of experimental and natural invertebrate hosts of sealworm (*Pseudoterranova decipiens*) and its distribution and abundance in macroinvertebrates in eastern Canada

K. Andersen: A note on the variation in sealworm (*Pseudoterranova decipiens*) infection in shorthorn sculpin (*Myoxocephalus scorpius*) with host age and size at two locations in Norwegian inshore waters

S-G. Lunneryd, K.I. Ugland and P.E. Aspholm: Sealworm (*Pseudoterranova decipiens*) infection in the benthic cottid (*Taurulus bubalis*) in relation to population increase of harbour seal (*Phoca vitulina*) in Skagerrak, Sweden

G. McClelland and D.J. Martell: Surveys of larval sealworm (*Pseudoterranova decipiens*) infection in various fish species sampled from Nova Scotian waters between 1988 and 1996, with an assessment of examination procedures

G. McClelland and D.J. Martell: Spatial and temporal distributions of larval sealworm, *Pseudoterranova decipiens* (Nematoda: Anisakinae), in *Hippoglossoides platessoides* (Pleuronectidae) in the Canadian Maritime Region from 1993 to 1999

D. Ólafsdóttir: Review of the ecology of sealworm, *Pseudoterranova sp (p)* (Nematoda: Ascaridoidea) in Icelandic waters.

D.J. Marcogliese: Distribution and abundance of sealworm (*Pseudoterranova decipiens*) and other anisakid nematodes in fish and seals in the Gulf of St. Lawrence: potential importance of climatic conditions

W.T. Stobo and G.M. Fowler: Sealworm (*Pseudoterranova decipiens*) dynamics in Sable Island grey seals (*Halichoerus grypus*): seasonal fluctuations and other changes in worm infections during the 1980s

G.M. Fowler and W.T. Stobo: Patterns of abundance and maturity among three species of parasitic nematodes (*Pseudoterranova decipiens*, *Contracaecum osculatum*, *Anisakis simplex*) co-existing in Sable Island grey seals (*Halichoerus grypus*)

F.J. Aznar, J.A. Balbuena, M. Fernández and J.A. Raga: Establishing the relative importance of sympatric definitive hosts in the transmission of the sealworm, (*Pseudoterranova decipiens*): a host-community approach.
